

27" LED Full HD 1080p Display

Extraordinarily Audio-Visual Enjoyment

VX2703mh-LED

Remove boundaries and experience a sensational audio-visual intimacy with the brand-new VX2703mh-LED. This 27" LED display, featuring a Full HD 1080p resolution, provides crystal clear image quality in an exclusively high 20,000,000:1 Dynamic Contrast Ratio. For significantly darker and brighter image contrasts, the VX2703mh-LED delivers an immersive viewing experience for multimedia heavy users. An embedded HDMI input along with advanced SRS Premium Sound® effects makes breathtaking movies, exciting games, on-line material or any high-definition multimedia content life-like and exciting. Enjoy the beauty of vivid video quality in a higher level of visual and auditory quality. The VX2703mh-LED redefines personal entertainment by bringing an immersive viewing adventure.

Full HD 1080p for superlative pixel performance

The VX2703mh-LED features a Full HD 1080p 1920 x 1080 resolution for an unbelievable pixel-by-pixel image performance. You'll experience the most amazing clarity and detail whether it be for working, gaming, or enjoying the latest in multimedia entertainment. A 16:9 widescreen ratio minimizes eye fatigue even after hours of viewing and is perfectly compatible with multi-window viewing without toggling.

Full HD 1080p

Normal

Ultimate home entertainment enjoyment with HDMI Inputs

You can connect the display to your desktop or high definition devices for work, to surf the web, or to play games. The VX2703mh-LED is also compatible with gaming consoles, Blu-ray® DVD/CD player, a cable box, or a satellite receiver for watching TV on your monitor!

Life-like audio quality with SRS Premium Sound® effects

Dual 2-Watt integrated speakers powered by SRS Premium Sound®, incredible audio effects are realized, elevating the display to an audiovisual entertainment system. With a wider sound field, you can experience more natural and immersive sound with deep, rich bass and crisp highs. With SRS Premium Sound®, there is no need for external speakers. Maximize your desk space, and let the all-immersive audio journey begin.

VX2703mh-LED

Reviving color with sRGB color mode

Accurate and consistent color performance is essential for professionals in graphic design, video editing, and other professional environments. With built-in sRGB color mode, the VX2703mh-LED reproduces 100% sRGB rich color performance and captures the original, true colors.

20,000,000 : 1 dynamic contrast ratio

The dynamic contrast ratio allows darker black levels and a higher dynamic contrast. An additional benefit is the significant reduction of light leakage on darker screens, especially when viewed from the side. Through intelligent modulation of the backlight, you experience deeper black levels while watching darker scenes in movies or video games; thus enhanced images are provided and more impressive screen performance is realized.

Eco-friendly LED backlight and ECO Mode

Embedded mercury-free LED backlights and ECO Mode featuring energy-saving with three-phases of self-adjusted power-savings, the VX2703mh-LED enhances display performance by delivering an outstanding color range, contrast ratio, and brightness output for remarkably defined images.
